 Right  Left  Both

- Achillies
- Ankle/Hindfoot
- Midfoot
- Forefoot
- Other \_\_\_\_\_

**CONTRAINDICATIONS FOR MRI**

- Pacemaker/Defibrillator
- Neurostimulator
- Cochlear Implant

**POSSIBLE CONTRAINDICATIONS**

- Aneurysm Clip
- Stapedectomy
- Morphine/Insulin pump

**POTENTIAL HAZARDS**

- Previous metallic foreign body in eye (e.g. from welding/  
grinder)
  - Please perform Orbit X-ray (tick if required)
- Shrapnel
- History of severe renal disease or dialysis for patients  
requiring contrast (Please provide  
recent creatinine levels or arrange for blood test)

**ABDOMEN/PELVIS**

- MRCP - Biliary System
- Liver
- Prostate
- Other \_\_\_\_\_

**UPPER EXTREMITY**

- Shoulder
- Elbow
- Forearm
- Wrist
- Hand

 Right  Left  Both

- Finger/Thumb
- Other \_\_\_\_\_

## MRI Information

Your Doctor has referred you to Wollongong Diagnostics Corrimal for an MRI Scan (Magnetic Resonance Imaging). MRI is a scanning procedure that uses strong magnets and radiofrequency pulses to generate signals from the body. These signals are detected by a radio antenna and processed by a computer to create images (or pictures) of the inside of your body.

Our scanner is a widebore magnet which helps ease patient's nerves who're claustrophobic and makes it a much more comfortable experience for all patients. We aim to make the experience as pleasant as possible for you.

The Scanner will make different tapping and buzzing sounds throughout your scan which is all part of the process of acquiring images. The Scanner does not use radiation to acquire these images however it uses a very powerful magnet. Some patients with certain implants or metallic/electronic devices cannot have an MRI scan. Please phone our helpful MRI technician to discuss this further if you think this applies to you.

## Booking your MRI

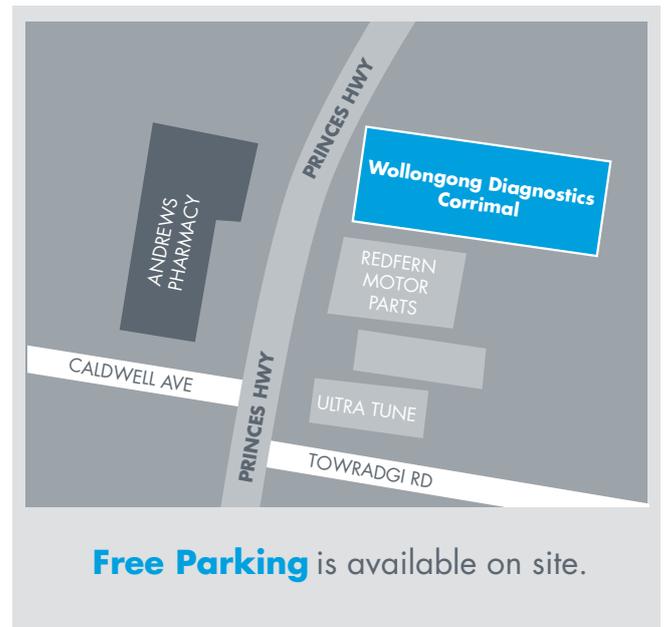

Please phone our friendly staff to make an appointment for your MRI. **It is preferred that your referral form is faxed or emailed ahead of your appointment so that we can ensure you have been booked correctly** and that any necessary preparation has been given.

## On the day of your appointment

It is a good idea to arrive 15 minutes early for your appointment to allow enough time for you to complete a simple questionnaire. Please remove all piercings prior to your appointment.

## MRI Fee Structure

Unfortunately our MRI Scanner is un-licensed due to restrictions by the Australian Government which means there will be a non-rebatable, affordable fee for all patients. However due to having an un-licensed machine any health professional can refer you for an MRI at our practice. Having your scan at Wollongong Diagnostics will likely save you time and money, whilst giving you an accurate diagnosis on the most comfortable, high quality MRI Scanner in the Illawarra. Payment is required on the day of your appointment.

## Wollongong Diagnostics Corrimal

432 - 434 Princes Hwy Corrimal NSW 2518  
(opposite Caesar's Chickens)
